
NEW THOUGHT DAY

1st Sunday in March
Let's Celebrate!

The New Thought Faith

*Putting the pieces together to create a
new reality of peace and compassion*

New Thought Core Values

New Thought, as defined in the dictionary, is a modern spiritual philosophy stressing the power of right thinking in a person's life, the idea that our thoughts and attitudes affect our experience and that the divine power of God's Spirit, is alive within each individual.

*"Change Your Thinking,
Change Your Life!"*

*"New Thought is a
correlation of the laws
of science, the opinions
of philosophy, and the
revelations of religion
applied to human
needs and the
aspirations of man."*

Ernest Holmes

New Thought Mission

We honor the diversity of cultures and faiths while aiming to articulate, practice, and embody more fully universal spiritual principles. We honor and respect all faiths, cultures, creeds, and races and learn from those who believe spiritual equity and human rights belong to everyone.

We encourage personal transformation and collective awakening. We practice the gift of active compassion and kindness through our service to all life. We foster a world that works for the highest good of all.

Unified Statement

For more than 100 years the various strands of New Thought have traveled parallel paths. Today the distance among the visions and values of our organizations are negligible.

Recent events, such as a shared participation in the 2009 Parliament of the World's Religions, have increased our visibility on the International stage as a Spiritual Faith.

Annual New Thought Day – First Sunday in March

Unified Statement

With the guidance of the Association for Global New Thought, we are now able to initiate new collaborative models that have not been possible in the past.

The New Thought Faith recognizes this transitional moment as historic and necessary to the generation of a living legacy of Spiritual Awakening and compassionate activism.

New Thought Rituals

During either the last week in December or the first week in January, most centers hold a **“Burning Bowl Ceremony”** at which time adherents meditate and pray and then throw a written list of items they want to discard from the old year into a fire pit.

Afterwards, they return to prayer and write lists of what they want to visualize for the coming year.

“Visualizing and Setting Goals” and **“praying for yourself and the world”** are daily rituals for New Thought adherents.

“World Healing Day” at noon Greenwich time, on December 31 - a planetary affirmation of peace
